Commissioner for Patents
Washington, D.C. 20231

S I R :

Please amend the application as follows.

IN THE SPECIFICATION:

Please replace the paragraph at page 10, lines 4-14 with the
following:

OK

In Figures 6A to 6C, as an example of the
sweptback angle β of the leading edge section 24 being
less than 30° (the leading edge section 24 is inclined
at an angle greater than 60° with respect to the
direction of the line of flow of the airflow), a
situation in which the sweptback angle β is 0° is
shown. When the airflow strikes the leading edge
section 24, the ice and snow which adhere grow forward.
